Coordinator
Cash Manager

June 13, 2014

I began utilizing the KH Services Food Service Management Software during the 2013-14 school year. I have been thoroughly impressed with all aspects of this software. This system has given me the tools and data needed to have real time and accurate daily, weekly, and monthly accounting and budgeting reports.

This software is very user friendly, from running reports to data entry. I have truly appreciated the training and assistance that was provided for implementing and understanding this program. I was also able to request software enhancements and upgrades throughout the year. These suggestions and requests have always been met with open arms. It is refreshing to work with a company that is helpful, customer oriented and open minded.

The FSM software has helped me manage my operational costs and budget, due to the real time and accurate data and the corresponding reports that compare various categories to last year's trends. This data has been invaluable to managing my business.

I would highly recommend KH Services to any school food service director that is looking for the tools to successfully manage a successful and profitable department.

Sincerely,

Randall S Kincaid
